	RL22	93.0	2934	98.0	3092	CCI250M

#### Notes:

H870 and H4831 are very accurate powders for this caliber. H870 is the best choice for hunting and target loads.

Always use either Federal 215 Mag. Primers or CCI 250 Large Rifle Mag. Primers. Never use Standard Grade Primers in loading for this caliber.

All tests performed by: Barnes - X Series Bullets, Barnes Bullets, Inc.
